Lana Franceschini

at 936-435-2426 in Walker County

TEXAS A&M
AGRI LIFE
EXTENSION

Schedule

Time	Topic & Speaker(s)
8 - 8:30 a.m.	Registration & Refreshments
8:30 a.m. Session One	<p>The State of Childhood Obesity – This presentation focuses on the prevalence and immediate and long-term health effects of childhood obesity. It will address how to prevent and control this epidemic in the childcare setting. <i>Presented by Arvitta Scott, Brazos County Extension Agent for 4-H and Youth Development, Prairie View A&M Cooperative Extension Program & Heroes 4-Health Ambassadors</i></p>
9:30 a.m. Session Two	<p>Helping Children with Grief or Loss: - Young children need help and support to understand death and other losses. Helping a young child deal with loss and grief is one of the most difficult responsibilities a child care provider may face. Young children do feel grief when they lose someone or something special to them. <i>Presented by Amy Ressler, Montgomery County Extension Agent for Family & Consumer Sciences</i></p>
<i>indicate your choice on Registration Form</i>	<p>A Hallmark Moment? - Come learn how greeting cards relay cultural messages about what girls and boys are and can be in our society and how these expectations can impact a child's sense of self. Participants will analyze cards for subtle and not-so-subtle messages that illustrate different expectations for girls than for boys. <i>Presented by Dr. Barbara Polnick, Professor, Educational Leadership & Counseling Department, Sam Houston State University</i></p>
10:30 a.m. Session Three	<p>Heroes 4-Health/Child-friendly Snack Demos - This session will engage providers in making healthy food choices in the childcare setting through food demonstrations and promote exercising 60 minutes a day to decrease Childhood Obesity. <i>Presented by Arvitta Scott, Brazos County Extension Agent for 4-H and Youth Development, Prairie View A&M Cooperative Extension Program & Heroes 4-Health Ambassadors</i></p>
<i>indicate your choice on Registration Form</i>	<p>Typical Eating Behavior in Small Children - Dealing with eating challenges such as picky eaters and food "strikes" is a common challenge in child care. Remember that children grow at different rates, and their appetites, food preferences and eating habits change as they get older. <i>Presented by Tonya Poncik, Lee County Extension Agent for Family & Consumer Sciences</i></p>
11:30 a.m. Session Four	<p>Using Learning Centers in Child Care - Learning centers are a way of dividing up your classroom into different subject/learning areas. The location of each learning center, placement of any furnishings or equipment, and easily available materials give a clear message to the child about what is to take place in that area. <i>Presented by Flora Williams, Brazos County Extension Agent for Family & Consumer Sciences</i></p>
<i>indicate your choice on Registration Form</i>	<p>SIDS/Shaken Baby - This one hour session meets the State of Texas criteria to educate early childhood instructors about Brain Development, Shaken Baby Syndrome and Sudden Infant Death Syndrome. Interactive activities are performed to help child care givers learn and remember these important facts. <i>Presented by Jessica Paul, Brazos County Health Department</i></p>
12:30 p.m.	Lunch Served—Session Immediately Following
12:45 p.m. Session Five	<p>Project Approach for Early Childhood - Participants will identify and discuss the characteristics of the project approach. They will participate in the construction of a potential project within their classroom. <i>Presented by Dr. Elizabeth Lasley, Assistant Professor of Early Childhood, and Dr. Catherine George, Assistant Professor of Special Education, Department of Language, Literacy and Special Populations, Sam Houston State University</i></p>
1:45 p.m. Session Six	<p>Anger Management in Child Care Settings - Anger and frustration are common emotions for young children. Child care providers can help young children learn how to handle anger in productive ways by helping them identify angry feelings, understand that anger is normal, and express their anger in healthy ways. <i>Presented by Tina Roehling, Burleson County Extension Agent for Family & Consumer Sciences</i></p>
<i>indicate your choice on Registration Form</i>	<p>Observational Assessment - Participants will identify, analyze and apply the necessary attributes of observational assessment. This includes observation, anecdotal notes, developmental checklists, photographs, and summary reports. <i>Presented by Dr. Elizabeth Lasley, Assistant Professor of Early Childhood, and Dr. Catherine George, Assistant Professor of Special Education, Department of Language, Literacy and Special Populations, Sam Houston State University</i></p>
2:45p.m. Session Seven	<p>Strategies for preschool English Language Learners (ELL) language and literacy development - The purpose of this session is to cover strategies for preschool ELLs' language and literacy development. Educators will learn how to apply strategies into their daily instruction. <i>Presented by Dr. Alma Contreas-Vanegas, Assistant Professor, Language, Literacy and Special Populations, Sam Houston State University</i></p>
3:45 p.m.	Evaluations & Certification Finalization
